CAREER OBJECTIVE

Enthusiastic Frontend Developer with hands-on experience building responsive, high-performance web applications using React.js and modern JavaScript (ES6+). Proficient in Reusable Component, RESTful API integration, component-driven architecture, and UI/UX optimization. Eager to deliver scalable, production-ready applications in a fast-paced engineering environment.

EDUCATION

Shankersinh Vaghela Bapu Institute of Technology (2022-2026)
Bachelor of Engineering (Computer Engineering)

Projects

E-garage :

- Engineered a full-stack garage management platform using React.js, Node.js, Express.js, and MongoDB.
 - Architected appointment scheduling, vehicle tracking, inventory management, and a dynamic customer dashboard.
 - Integrated RESTful APIs and real-time notifications to streamline service updates and boost engagement.
- Live demo(E-Garage) :** <https://e-garage-frontend-zdym.vercel.app/>

Quiz Web :

- Built an interactive quiz application using React.js with real-time score tracking and dynamic question rendering.
- Designed a fully responsive UI and optimized rendering performance for seamless cross-device navigation.
- Implemented centralized state management for quiz progression, answer validation, and automated result calculation.
